

Critical humanitarian needs for 2013 (assistance to IDPs, response to cholera epidemic, food insecurity and malnutrition and natural disasters)

Food security

1.5 million people face severe food insecurity and risk facing a nutritional crisis

Population across the country now facing threats to their food security:

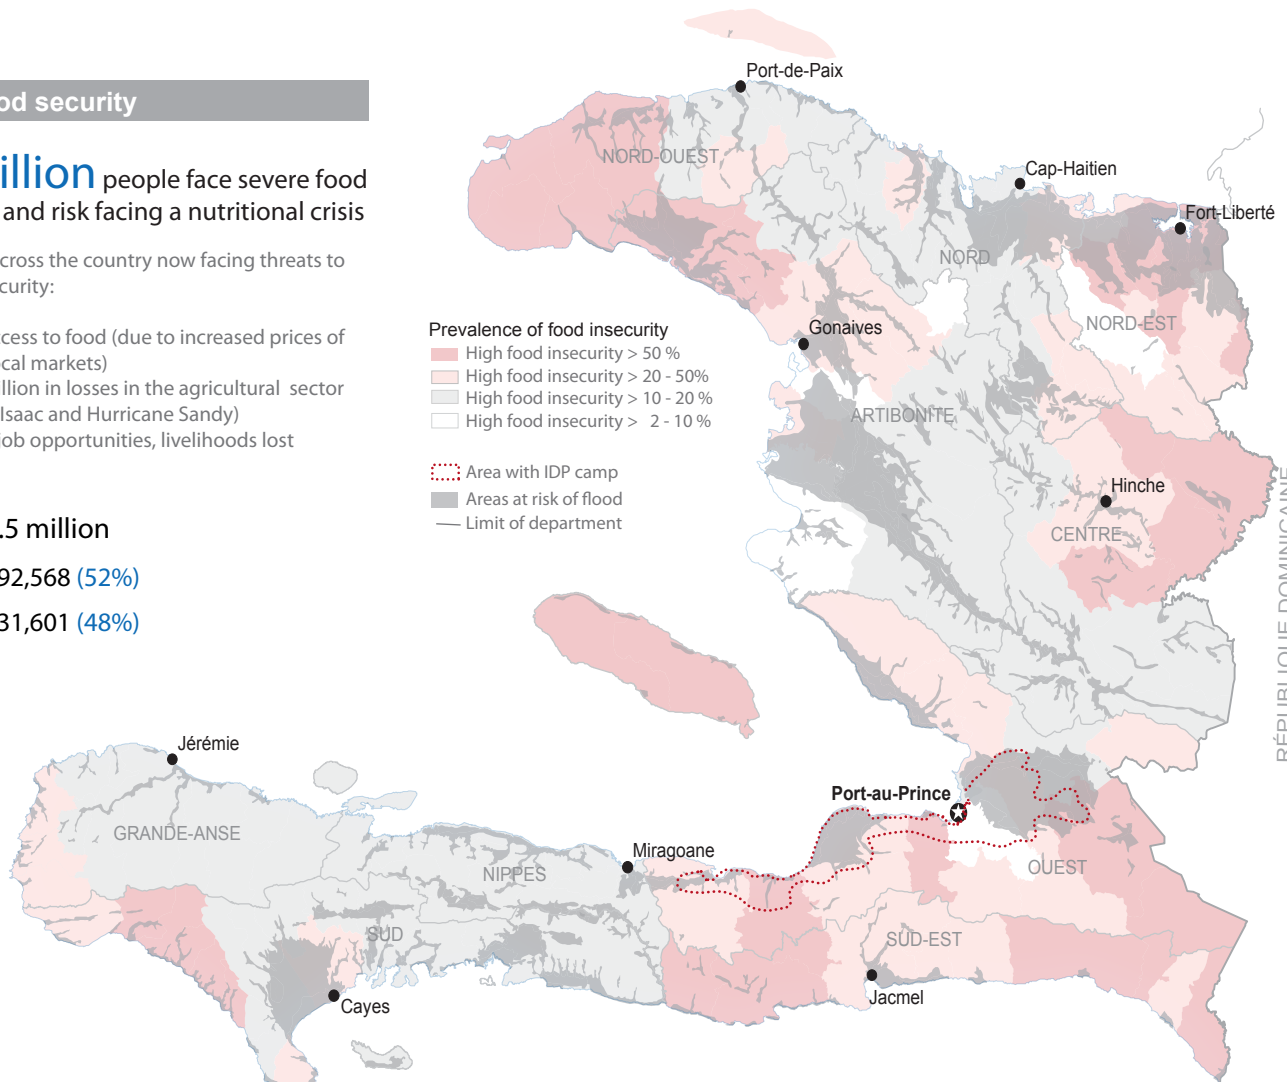

- Reduced access to food (due to increased prices of staples in local markets)
- USD 254 million in losses in the agricultural sector (drought, TS Isaac and Hurricane Sandy)
- Decreased job opportunities, livelihoods lost

= 1.5 million
 = 792,568 (52%)
 = 731,601 (48%)

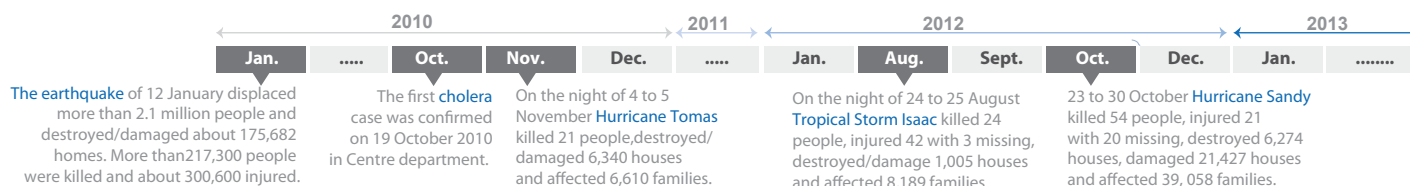

Prevalence of food insecurity

- High food insecurity > 50 %
- High food insecurity > 20 - 50%
- High food insecurity > 10 - 20 %
- High food insecurity > 2 - 10 %

Area with IDP camp
 Areas at risk of flood
 Limit of department

Nutrition

81,600 acutely malnourished children under five

6.6% of children under five with acute malnutrition

5.1%

Children under five with Moderate Acute Malnutrition (MAM)

1.5%

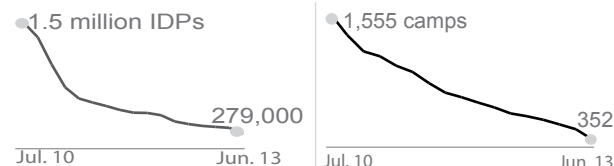

Children under five with Severe Acute Malnutrition (SAM)

Sources: UNICEF, BID, Survey in August 2012, CNSA

Internally displaced persons

279,000 IDPs in June 2013

72,500 IDPs under high risk of eviction threat

	High risk	Low risk	Partially evicted	Resolved
# IDPs	72,458	18,638	3,606	9,751
# Camps	41	58	9	26

Cholera epidemic

100,000 projected new cholera cases in 2013.

New cholera outbreaks since April 2013

32,290

Cumulative cholera cases (Jan. to July 2013)

285

Deaths (Jan. to July 2013)

0.9%

Fatality rate (Jan. to July 2013)
